

O-RINGEN 2018 ACADEMY

Bulletin nr. 1

The organizers of O-Ringen Höga Kusten 2018 together with PWT Travel, in cooperation with the International Orienteering Federation, are pleased to invite you to participate in the annual O-Ringen Academy, which will be held in connection with the O-Ringen competition in Örnsköldsvik, Sweden.

Goals and participation

The Academy provides a unique opportunity for orienteering federations and interested individuals to work on developing the sport in their home countries. The idea behind O-Ringen Academy is, through the transfer of knowledge and experience, to develop individual competency to be able to promote, organize and teach orienteering and at the same time participate in the world's greatest orienteering event, O-Ringen.

O-Ringen Academy is primarily intended for participants from new and developing orienteering countries, where there is a need to quickly learn the skills and routines required to organize orienteering events.

However, we also welcome participants from established orienteering nations who want to increase their base of knowledge. **This year we also hope to get more first step young runners in ages 15-20.**

O-Ringen Academy

In order to develop the Academy even further we are now offering education on different levels, Beginner and Advanced. This gives you the opportunity to come back to Academy and learn something new each time.

Level 1 – Beginner

What is required in order to start up orienteering in your country?

The focus here is on the three base areas (all participants undergo the same program):

- 1) Map drawing
- 2) Organization – training and simple competitions
- 3) Beginners orienteering – coaching beginners

Level 2 – Young runners

Open for all: beginners or elite runners

Level 3 – Advanced

What is required in order to further develop orienteering in your country, in specific areas?

The focus here is on the three base areas (all participants undergo the same program):

- 1) Map drawing
- 2) Organization – larger orienteering events
- 3) Advanced orienteering – coaching juniors and seniors
